

SEP 19 1996

Mr. Frank R. Weaver  
Senior Environmental Scientist  
UtiliCorp United/Energy One  
10700 East 350 Highway  
P. O. Box 11739  
Kansas City, Missouri 64138

Dear Mr. Weaver:

Re: Citizens Gas and Electric Site ("Site"), Council Bluffs, Iowa  
Administrative Order on Consent for Site Characterization and Reimbursement of  
Response Costs--Docket No. VII-93-F-0033 ("Order")

In your letter dated August 26, 1996, you requested copies of the ARCS Work Assignment Status Reports ("reports") which were submitted to the Environmental Protection Agency (EPA) for oversight activities performed by the Jacobs Engineering Group, Inc. (Jacobs) at the above-mentioned Site. These reports contain a summary of the monthly activities which were completed by Jacobs on behalf of the EPA. The time frame of the reports is from March 1994 through January 1996.

You had also requested similar information on the services of ICF Technology, Inc. (ICF). ICF is a contractor under the Environmental Services Assistance Teams (ESAT) contract with the EPA. The ESAT contractor provides sampling and analysis support to the EPA laboratory. Since I was not a work assignment manager under the ESAT contract, I would not have received the same information for their activities that I received for Jacobs' activities.

Your request for a waiver of the daily interest that is accruing on the unpaid balance for oversight costs incurred at the Site is being handled as a separate matter. You will receive information on that request shortly.
